

Rhopoint Components Ltd acts as an authorised distributor for industry leading original equipment manufacturers (OEM'S) from around the world. Rhopoint Components procures directly from these manufacturers and are verified in line with our BS EN ISO 9001 certified quality management system (procurement, stockholding, supply)

Where possible, we utilise batch traceability, ensuring products show batch codes on the packaging or product enabling us to verify the original component, and any sub-component, to be traced back to their origin. In addition, manufacturers certificates of conformity (CofC) are obtained to validate original product source.

Rhopoint Components has longstanding strong relationships with these product manufacturers instilling trust between both parties, which in turn gives assurances to our customers.

With all of these outlined factors Rhopoint Components believes to the best of their ability that no counterfeit products enter our product supply chain.

Please do not hesitate to contact Rhopoint if you have any questions or queries on:

+44 (0) 1342 330470 or sales@rhopointcomponents.com
