

SENSORS & SWITCHES

THE WORLD LEADER

IN ADVANCED SWITCHING
& MAGNETIC SENSING
SOLUTIONS

RedRock® TMR-Based Magnetic Sensor

*Lowest Power Consumption • Smallest Package Size
Highest Magnetic Sensitivity*

Engineered for small, battery-powered devices
SOT-23 Package & Ultra Miniature LGA-4 Package

Analog and Digital Sensing Options

Ideal for "Wakeup," Proximity Detection, Fluid Level
Sensing, Security, and Power Switching Applications

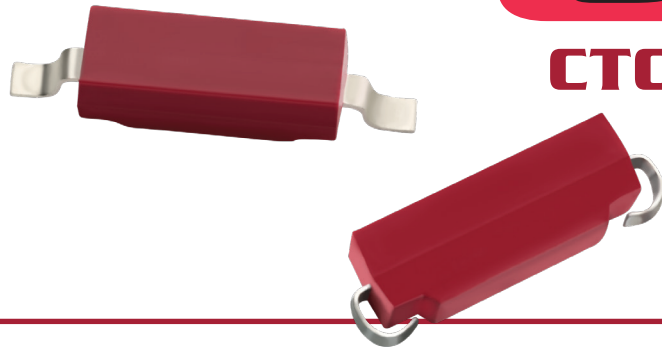

The World's Smallest Molded Reed Switch

5mm Body Length

5 W Hot Switching Capability

Low Contact Resistance

Ideally suited for Automation, Industrial
Controls, and Proximity Sensing

Our Most Popular Molded Reed Switch

10mm Switch Body Length

10 W Hot Switching Capability

260°C Process Temperature Hardy

Integrated Lead Frame Available for
Maximum Co-Planarity & Solderability

Need Help Choosing?

Coto offers comprehensive applications support to help you find the right solution. All of Coto's switches and sensors are RoHS compliant, tape & reel packaged, and pick & place ready. Contact appsupport@cotorelay.com.
